## Condensed Matter Conference

The second Conference of the Condensed Matter Division of the European Physical Society will be held on 21-26 October 1974 in Budapest, Hungary, under the auspices of the Hungarian Academy of Sciences and the Eötvös Lorand Physical Society.

The following two broad subjects, covering a group of phenomena on the one hand, and a group of materials on the other, have been chosen: PHONONS DIELECTRICS.

There will be invited lectures by prominent specialists and short communications on certain selected topics.

A circular giving more detailed information will be sent to all individual ordinary members of EPS with the September issue of *Europhysics News*. Other interested physicists should apply to the President of the Organizing Committee:
