

## Educational Award 2023 – Deadline Extended

October 11, 2023, Mainz, Germany – Edmund Optics®, a leading global manufacturer and supplier of optical components, is currently accepting submissions for this year’s Edmund Optics Educational Awards in Europe and the Americas and has decided reflecting requests from applicants to extend the deadline to October 30, 2023.

The Edmund Optics Educational Award is an initiative to support outstanding undergraduate and graduate optics programs in science, technology, engineering and mathematics at non-profit colleges and universities. All awards will be in the form of product donations to the program and will range from 250 to 7.000 Euros in Edmund Optics products. Additional benefits in applying are getting visibility and further options to present the project leveraging Edmund Optics’ large network.

Anyone involved in an existing or newly formed higher education optics program may submit an application, including undergraduate and graduate students, PhD students, lab managers, teaching assistants and

professors. Application is very easy through an existing template and only takes about 5 minutes.

The original application deadline of October 16, 2023 is now extended to October 30; 2023, winners will be announced December 20, 2023.
