

## New Distributor Windsor Scientific – UK Distributor

RHK Technology Appoints Windsor Scientific Ltd. as its Exclusive UK Distributor

- As part of its ongoing mission to enhance sales support in the UK and Ireland, RHK Technology, Inc., the innovation leader in cryogen-free scanning probe microscopy (SPM) and SPM control systems, announced today that it has appointed Windsor Scientific as its exclusive distributor in the UK. Windsor Scientific has served the scientific instrumentation market in the UK since 1989. They offer sales and support across the country. Windsor Scientific can be contacted at +44 (0) 1753 822522, or via their website: [www.windsorscientific.co.uk](http://www.windsorscientific.co.uk).

“We are very excited about adding Windsor Scientific to our family of world-wide distributors,” said Adam Kollin, President of RHK Technology. “Their extensive experience in SPM, materials and scientific instrumentation, will be a great asset to RHK and our ability to help prospective customers make informed decisions.”

Keith Dawes, President of Windsor Scientific, added, “We are very pleased to be working with RHK in the UK. RHK has a great reputation for innovative UHV SPM and control system technology, and a legacy of customer success that is unmatched in the industry. This addition is a good fit with our focus on UK and Ireland markets that provide research and development instrumentation to stimulate the advancement of scientific research for the benefit of the community”.

RHK Technology, Inc. manufactures ultra-high vacuum scanning probe microscopes (UHV SPM), Control Systems, and Nano-Optical instruments for research in major universities and government laboratories around the globe. RHK is based in Troy, MI, USA. [www.rhk-tech.com](http://www.rhk-tech.com)
